ABOUT WEBINAR:

"History is an unending dialogue between the present and the past".

BY, E. H. CARR (Edward Hallett Carr)

History is the mother of social sciences and it comes from the Greek word 'historia' which means inquiry, the act of seeking knowledge as well as the knowledge that results from the inquiry. The renowned historian Herodotus is the father of History. It is the study of life in human society in all aspects in relation to present development and future hope and reconstruct with the help of evidence from various sources. Historical sources include documents, artifacts, archaeological sites, and features. Generally historical sources are of two types – PRIMARY SOURCES and SECONDARY SOURCES. The Primary Sources are the first-hand information such as archaeological remains, epigraphic records, numismatics, foreign accounts and Archival Sources like Diaries, Letters, Interviews, Photographs, Newspapers, Government Documents, etc. The Secondary Sources are those works that comment on the past. Like the rest of the Indian subcontinent, history of Odisha is also reconstructed with the help of a variety of sources. Sources of history are not static. Recent researches and investigation led to the emergence of new sources. Hence, updated knowledge and proper understanding of sources are the need for the students of History. The aims and objectives of the Webinar is to highlight the importance of sources for writing history in general and Odisha History in particular. Sources play significant, tremendous, and vital role in writing the history of Odisha or any region. Sometimes, the sources could be humdrum to the historians, scholars and Students. The chief aim of the International Webinar is how the coming generation of students of History will gain more knowledge from sources to write History properly without any doubt. After a vivid discussion, it has been decided that proper deliberation on the major sources of Odisha History will help the students of under- graduation and post-graduation to understand the basics of History and easily face the examinations. This is the straightforward motto of INTERNATIONAL WEBINAR IN HISTORY OF REMUNA DEGREE COLLEGE.

About The College

Remuna Degree College stands on the out-skirts of Balasore, claiming twin-town impression surrounded by industries and factories. Keeping this in view, the inceptors established this institution in the year 1996 in between Balasore Medical College and New-Campus of F.M. University to cater to the need of higher education of rural and backward class students of the district, and nearby district Mayurbhanj, having thick tribal population. Remuna is well- accessible to all kinds of learners and scholars. Thus, Remuna Degree College proves as an educational hub for seekers of new opportunity in near future. This institution grows on public effort and serves the holistic purpose of nation building. The campus includes multi-storied buildings, digital library, well-furnished laboratories and lavatories, eco-friendly green garden, functional canteen, ladies hostel and spacious playground. For conducive academic atmosphere, there are in-built air conditioned Language Lab, conference hall and well-lit class rooms. What makes it different from other institutions is its "solitariness" or isolation from the crowd. This uniqueness is rewarded in NAAC visits in the year 2016 with B++.

ABOUT THE DEPARTMENT

The Department of History came into existence in 1996. The Department tries its best to lay strong foundation in various historical aspects for students and it provides a strong background to the historiography and sources of history through the curriculum designed as per CBCS pattern with quality education which have helped the students to uplift their efficiency and build their bright career. The faculties have been working as mentors for the students and guide them for pursuing their academic goals in higher education dedicatedly. Students of the Department are achieving various awards for their outstanding performance in study and other activities. As a blooming bud the Department of History grows and works in continuous process with high expectation for perfection of the ultimate goal of education. History provides us the zeal to perform, to save and to propagate our own mastery in different fields and preaches to try to be glorious getting past experiences.
