

Certificate

Certified that the Green Audit at Remuna Degree College, Remuna has been successfully accomplished by the Green Audit Committee under my supervision. I hope that it will further the institutional performance in creating environmental conservation awareness in the campus. I look forward to the all-round development of the institution since the natural and pastoral surrounding is an advantage for an educational institution in order to rear up the academic performance. I wish all success of the endeavour of all the staff of the college.
